

## **Program extensions and changes GENOS Edition**

### **2022-02-23**

With the function key F5 on the PC keyboard (or a foot switch programmed with F5), not only can you play an ink jet in the track selection mode, but now an mp3 file belonging to the track can be started when the score is displayed. The wireless PageFlip Dragon, which is connected to the PC via Bluetooth, is very suitable as a programmable foot switch.

### **2021-08-12**

The transfer of the button direction to the PRESETs was not always correct.

### **2021-06-28**

Title search for keywords in connection with the on-screen keyboard has been revised.

### **2021-02-03**

The update of the keywords when changing the title list has been revised.

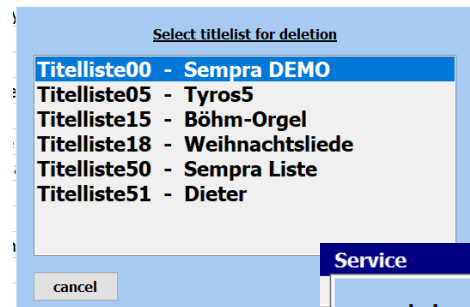

1. When playing an MP3 belonging to the track, the volume can be adjusted directly on the monitor.

3. The connection to a wireless display for videos (beamer or similar) can now be established from the program via **SERVICE-> Wireless Display Adapter**.

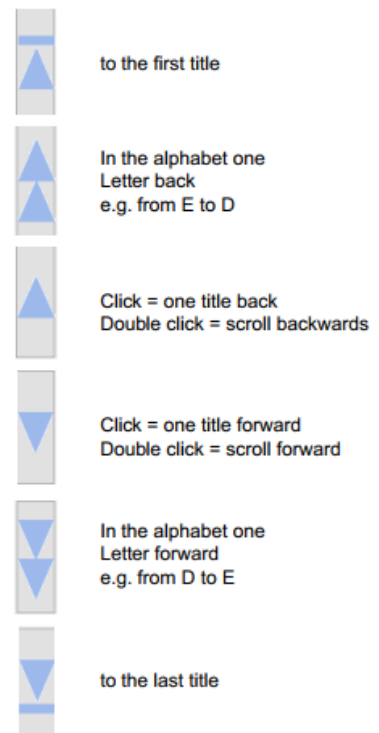

2. When deleting playlists, not only the numbers of the playlists are displayed, but also the names.

3. The connection to a wireless display for videos (beamer or similar) can now be established from the program via **SERVICE-> Wireless Display Adapter**.

4. The functions of the navigation keys have been expanded.

5. Information about all program updates can now be called up directly from the program under **SERVICE-> Update Info**.

6. The program now has the option of making audio recordings (MP3 or WAV).

7. If you move the mouse over the SET columns in the title list, the names of the corresponding SET are displayed under the mouse pointer. This simplifies the marking of the SETs.

Are you lonesome tonight	18	46							
Arrivederci Roma	18	48							
Babysitter Boogie	18	55			*				
Bacarole in der Nacht	18	62							
Bad Moon rising	18	56							
Blitz	10	6							Set4 Oldies

**All extensions are explained in detail in the program documentation.**

### **2020-11-20**

Extension of the program description by the following point: "Creating and assigning button macros on the SEMPRA for turning notes in ATMObyte"

This description was kindly provided by Claus Riepe.

### **2020-09-14**

In the PDFsynchronous function, not only can several titles be selected for transfer to the title list, but all titles (notes) can also be marked for transfer to the current title list with one click.

### **2020-09-03**

The display with the monitor in a vertical position (upright) was not correct. This bug has been eliminated

### **2020-09-01**

A function to clear all markings for a certain SET has been added. To do this, while holding down the Ctrl key, left-click on the desired SET and confirm the following question with **YES**.

### **2020-03-27**

The PDF synchronous function has been expanded. Any number of selected titles can now be transferred with one click.

### **2020-03-03**

When calling up several titles one after the other, there were sporadic delays in the note display, both with individual calls and with the PRESETs. This error has been eliminated.

### **2020-01-03**

The programs have been optimized for use with small tablet PCs. The position of the tablet is automatically recognized and, when held upright, not only is switched to single-sided display, but the user interface is also adapted to the size of the display. This means that you can work well even with small trays (10 "). The music notation extends over the entire screen anyway. A good solution for on the go.

### **2019-10-24**

This version now also supports the Yamaha keyboards PSR-S775 / 975 and PSR-SX700 / 900 ..

### **2019-10-23**

All restrictions have been lifted in the **DEMO** versions. Only the red word DEMO appears above the notes. The documentation has been updated.

### **2019-09-09**

Calling up the first title after starting the program has been accelerated.

### **2019-08-27**

The automatic function has been revised.

### **2019-08-21**

The PDFsynchronous function has been revised. This considerably accelerated the display of the PDF in this function.

### **2019-04-15**

A sporadic error in connection with the function **PDF synchronously** and then **insert title** has been eliminated.

### **2019-04-12**

The current program version is now displayed under **SERVICE-> LICENSE.**

### **2019-04-06**

The program now has a **copy preset** function. Details on this function can be found in the PDF manual or in the online help in the program using the F1 key.
