Program extensions and changes TYROS Edition

2025-03-28
The **delete track list** function has been revised.

2025-02-25
Security Update

2025-02-01
The MIDI-IN device can now be freely selected in SERVICE->EXPANDED.
This device is required for automatic title creation.
Due to a Windows update, the automatic search for the MIDI-IN device no longer worked correctly.

2025-01-04

In the PRESETs it is now possible to play MP3 files belonging to the track.

When playing an MP3 belonging to the track, the volume can be adjusted directly on the monitor.

2024.02.23
Graphic correction.

2024.02.13
The automatic determination of the column width for the titles in the title list has been optimized.

2024.01.15
There is now an INFO field under the track list. Title-related information can be entered into this.
The KEYWORDS function has been revised.

2023-11-29

Correction in the naming of the SETs.

2023-10-12

The names of the 12 SETs, to the right of the title list, were previously created globally for each title list. These could be changed, except FAVORITES, but this change then affected all track lists. Now each track list has its own SET labels. A change only affects the current track list. To change a SET name, simply right-click on the SET name. The changed SET name is adopted using the ENTER key on the keyboard.

2021-10-20

With the function key F5 on the PC keyboard (or a foot switch programmed with F5), not only can you play an ink jet in the track selection mode, but now an mp3 file belonging to the track can be started when the score is displayed. The wireless PageFlip Dragon, which is connected to the PC via Bluetooth, is very suitable as a programmable foot switch.

2021-08-12

The transfer of the button direction to the PRESETs was not always correct.

2021-06-29

Title search for keywords in connection with the on-screen keyboard has been revised.

2021-03-05

The control via foot switch (USB or Bluetooth) has been revised.

2021-02-03

The update of the keywords when changing the title list
has been revised.

1. When playing an MP3 belonging to the track, the volume can be adjusted directly on the monitor.

3. The connection to a wireless display for videos (beamer or similar) can now be established from the program via **SERVICE-> Wireless Display Adapter**.
2. When deleting playlists, not only the numbers of the playlists are displayed, but also the names.
3. The connection to a wireless display for videos (beamer or similar) can now be established from the program via **SERVICE-> Wireless Display Adapter.**

4. The functions of the navigation keys have been expanded.

to the first title

In the alphabet one
Letter back
e.g. from E to D

Click = one title back
Double click = scroll backwards

Click = one title forward
Double click = scroll forward

In the alphabet one
Letter forward
e.g. from D to E

to the last title

5. Information about all program updates can now be called up directly from the program under **SERVICE-> Update Info**.
6. The program now has the option of making audio recordings (MP3 or WAV).

7. If you move the mouse over the SET columns in the title list, the names of the corresponding SET are displayed under the mouse pointer. This simplifies the marking of the SETs.

Are you lonesome tonight	18	46					
Arrivederci Roma	18	48					
Babysitter Boogie	18	55			*		
Bacarole in der Nacht	18	62					
Bad Moon rising	18	56			Set4 Oldies		

All extensions are explained in detail in the program documentation.

2020-11-20
Extension of the program description by the following point: "Creating and assigning button macros on the SEMPRA for turning notes in ATMObyte"
This description was kindly provided by Claus Riepe.

2020-09-14
In the PDFsynchronous function, not only can several titles be selected for transfer to the title list, but all titles (notes) can also be marked for transfer to the current title list with one click.

2020-09-03
The display with the monitor in a vertical position (upright) was not correct. This bug has been eliminated

2020-09-01

A function to clear all markings for a certain SET has been added. To do this, while holding down the Ctrl key, left-click on the desired SET and confirm the following question with **YES**.

2020-03-27

The PDF synchronous function has been expanded. Any number of selected titles can now be transferred with one click.

2020-03-03

When calling up several titles one after the other, there were sporadic delays in the note display, both with individual calls and with the PRESETs. This error has been eliminated.

2020-01-03

The programs have been optimized for use with small tablet PCs. The position of the tablet is automatically recognized and, when held upright, not only is switched to single-sided display, but the user interface is also adapted to the size of the display. This means that you can work well even with small trays (10 "). The music notation extends over the entire screen anyway. A good solution for on the go.

2019-10-24

This version now also supports the Yamaha keyboards
PSR-S775 / 975 and PSR-SX700 / 900 ..

2019-10-23

All restrictions have been lifted in the **DEMO** versions.
Only the red word DEMO appears above the notes.
The documentation has been updated.

2019-09-09

Calling up the first title after starting the program has been accelerated.

2019-08-27

The automatic function has been revised.

2019-08-21

The PDFsynchronous function has been revised. This considerably accelerated the display of the PDF in this function.

2019-04-15

A sporadic error in connection with the function **PDF synchronously** and then **insert title** has been eliminated.

2019-04-12

The current program version is now displayed under **SERVICE-> LICENSE**.

2019-04-06

The program now has a **copy preset** function. Details on this function can be found in the PDF manual or in the online help in the program using the F1 key.
